MARY MACLANE AND A TIP.

Among the little foibles of the remarkable young lady from Butte is one which is told by a former sec-retary of Edmund Clarence Stedman, who lunched with Mary Mac-Lane at a downtown restaurant recently After lunch was over Mary MacLane said to her friend:

"Now, you just let me fix the tip the way I want."

Then Mary signaled the waiter and, producing a quarter, said

"Waiter, I'll match you for the

With a look of astonishment on his face the waiter produced a quarter and laid it down. Mary won. Then, with the same calm air, she

continued: "Now I'll match you for that quarter."

Mechanically the astounded waiter deposited his quarter. Again the luck favored Mary, and she quietly

pocketed the coin.

"You see, my dear," said she to
her companion, "we really do things
better in Butte."—New York Times.

Ballooning In a Thunderstorm.

Two German aeronauts, Dr. Miethe and Lieutenant Hildebrandt, recently had a remarkable experience in the heart of a thunderstorm. They ascended from Tegel at 3 o'clock in the afternoon and, passing through a mist, came suddenly into a thundercloud. From a height of 650 feet the balloon was shot a mile upward, and then as suddenly it dropped half a mile. They make the curious statement that although they did not see the lightning they were deafened by the thunder, while pelted with rain, hall and sleet. The balloon leaped and plunged so swiftly that at times the car was on a level with the gas bag and the tow rope was above their heads. After about half an hour of this experience the balloon fell from a height of 7,200 feet, descending upon a thick wood of beeches, branches of which broke the fall and saved the lives of the adventurers.

Insurance Figures.

Few people have any idea of the enormity of the insurance business of the United States. It not only exceeds that of any other country, but is twice as great as that of all the rest of the world combined. At the present time there is in the United States about \$12,000,000,-000 of life insurance in force, in-

reflects the havoc of civil war. Since that time the trend of values in these states has been upward. the west the values have rapidly advanced. The only apparent exception is the last decade. But the lower figures for 1900 are due to the large amount of cheap land thrown open to the public.—Mahin's Maga-

Menelek's Clocks.

The Emperor Menelek, among his other hobbies, takes great interest in clocks, and several chronometers have recently been imported from Switzerland by M. Ilg, his Swiss adviser, which vary no more than six seconds in two months. Ras Makonnen has also ordered several curious mechanical clocks from Swiss firms for presentation to the negus and the empress. The most remarkable of these is a great chiming clock to imitate that of St. Marga ret's Westminster, London.

Allow me to say a few words in prais of Chamberlain's Cough Remendy, I can recommend it with the utmost confidence. It has done good work for me and will do the same for others. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, RALPH S. MEYERS, 64—Thirty-seventh street, Wheeling, W. Va. For sale by Richard Gibson druggist.

Slow Starvation

Kodol is the sensible remedy. By digesting what you eat it strengthens the body and at the same time rests the stomach. This rest soon restores perfect health. Cathartics and stimulants only reach the symptoms. Kodol cures. It is Nature's tonic.

Five years ago a disease the doctors called dyspepsia took such a hold on me that I could scarcely go. I took quantities of pepsin and other medicines, but nothing helped me. As a drowning man grasps at a straw I grabbed at Kodol. I felt an improvement at once, and after a few bottles am sound and well. Geomor S. Marsu, Attorney-at-Law, Nocona, Tex.

Difference of the insurance in force, including assessment business, says Leslie's Weekly. This means over \$1600 for every man, woman and child in the country, or \$500 for every family. The annual risks written by the fire insurance companies are estimated at \$20,000,000, which is \$250 per capita, or \$1,250 per family. Thus it will be seen that every family in the country on an average has insurance assets of over \$2,000.
